CASTROL AGRI TFD

DESCRIPTION:

Castrol Agri TFD is a superior quality, high performance universal tractor transmission oil (UTTO).

APPLICATION:

- Castrol Agri TFD is recommended for use in most modern industrial and agricultural tractor transmissions, final drives and hydraulic systems, including oil immersed (wet) brakes and power take-offs (PTO).
- It is also recommended for use as a hydraulic fluid in Sunstrand Hydrostatic Transmissions and where an ISO 68 hydraulic fluid is required.
- Castrol Agri TFD may be used where an SAE 80W GL-4 quality oil is recommended.

BENEFITS:

- Ensures increased gear wear protection because of the selected anti-wear additives used.
- Reduced brake chatter without compromising the friction retention necessary for brake capacity and PTO clutch performance.
- Protection of gears and bearings against corrosive attack at both high and low temperatures, due to specialised corrosion inhibitors.
- Superior detergency and dispersancy ensures that transmission and hydraulic mechanics are kept clean and free to operate efficiently.
- Selected foam inhibitors ensure rapid collapse of foam and rejection of entrained air.

FEATURES:

- Extended equipment life.
- Selected oxidation inhibitors ensuring protection against the formation of sludge.
- Viscosity Index Improvers minimises the effect of temperature on viscosity ensuring full fluid film protection under all temperature conditions.
- Excellent oxidation stability and lubricity.
- Contains corrosion, anti-wear and foam inhibitors.
SPECIFICATIONS AND APPROVALS:
Agri TFD meets the requirements and/or is approved for use in:

- Ford ESN-M2C-134C
- Massey Ferguson M1127, M1129A & M1135
- John Deere – J20A/B
- International Harvester
- Deutz Fahr
- Landini
- Allison C-3
- Caterpillar TO-2
- JI Case MS-1206 Fluid
